MARIANI THERMO GROUP
SINCE 1973

DECLARATION OF CONFORMITY

Regulations applied	Swiss Ordinance on Electrical Low-Voltage Equipment (Verordnung über elektrische Niederspannungserzeugnisse, NEV, SR 734.26), Art. 1 para. 2 lit. a, Art. 13 and Art. 14 Regulation (EU) 2023/988 on general product safety
Type of equipment	Electric boiler (closed storage water heater), 12 V DC or 24 V DC
Trademark	TIGER EXPED / autoterm Product names: combiBOIL, duoBOIL (ATI range VAN BOILER) and monoBOIL (ATI range MINI BOILER)
Type designation and code	See "Models covered by this declaration" on page 2. The list is part of this declaration.
Serial number	All serial numbers of the codes listed, with the heating element stated on page 2
Manufacturer	ATI DI MARIANI SRL Via E. Mattei, 461 47522 CESENA (FC) - ITALIA
Description	Storage water heater for vehicles and boats. Heating element: 12 V DC / 300 W or 24 V DC / 300 W; monoBOIL 24 V: 600 W. The list on page 2 states the heating element of each model. **combiBOIL and duoBOIL are covered with the 300 W heating element, also where the code contains "0600".**
Protection	Over-pressure: maximum working pressure 2 bar, as stated on the label. Check and safety valve fitted to the appliance, opening at 3 ± 0.5 bar. Temperature: the 12/24 V heating element has no built-in thermostat and no thermal cut-out. The temperature is controlled by the external thermostat named below. If the thermostat fails and the heating element stays on, the safety valve relieves the pressure. Conditions of use: installation by a competent person; scald protection (thermostatic mixing valve) at the hot water outlet; hoses and fittings rated for hot water; drain hose of the safety valve routed so that nobody can be scalded.
Standards applied	IEC 60335-2-21:2012; IEC 60335-2-21:2012/AMD1:2018 used in conjunction with IEC 60335-1:2010, IEC 60335-1:2010/COR1:2010, IEC 60335-1:2010/COR2:2011, IEC 60335-1:2010/AMD1:2013, IEC 60335-1:2010/AMD1:2013/COR1:2014, IEC 60335-1:2010/AMD2:2016, IEC 60335-1:2010/AMD2:2016/COR1:2016 Deviation: the 12/24 V versions have no thermal cut-out; protection as described under "Protection".
Thermostat	External thermostat supplied with the appliance: ATI code 280-0006, type TSR TEX4275 or TEX4275-EVO. Manufacturer: texdev GmbH, Weseler Str. 82, 46519 Alpen, Germany. Operating thermostat, not a protective device. Tested by texdev on the basis of EN IEC 60730-1:2024 + A11:2024 and EN IEC 60730-2-9:2026: test report TSR-2026-01 (November 2026).

As manufacturer, we declare under our sole responsibility that the equipment listed in this declaration complies with the regulations named above and with the recognised rules of technology within the meaning of Art. 13 NEV. The standards listed have been applied, with the deviation named there.

MARIANI THERMO GROUP
SINCE 1973

Models covered by this declaration

combiBOIL and duoBOIL with "0600" in the code (VB07063S, VB09063S, VB12063S, VB09063A): the "0600" is part of the article number. This declaration covers these codes with the 24 V DC / 300 W heating element.

monoBOIL 24 V (MB03063E-TE, MB04063E-TE, MB06063E-TE): 600 W heating element.

Each line is one model; the three codes name the same product and are printed on its label.

ATI code	TIGER EXPED code	Autoterm code	Type	Heating element
12 V DC · heating element 300 W
